Pt. 10

pool member if that pool member participates in a competing offer submitted by the pool.

(b) If a pool member submits an individual offer, independent of the pool, the contracting officer shall consider the pool agreement, along with other factors, in determining whether that pool member is a responsible prospective contractor under subpart 9.1.

PART 10—MARKET RESEARCH

Sec.

10.000 Scope of part.

10.001 Policy.

10.002 Procedures.

AUTHORITY: 40 U.S.C. 121(c); 10 U.S.C. chapter 137; and 42 U.S.C. 2473(c).

SOURCE: 60 FR 48237, Sept. 18, 1995, unless otherwise noted.

10.000 Scope of part.

This part prescribes policies and procedures for conducting market research to arrive at the most suitable approach to acquiring, distributing, and supporting supplies and services. This part implements the requirements of 41 U.S.C. 253a(a)(1), 41 U.S.C. 264b, 10 U.S.C. 2377, and 6 U.S.C. 796.

[60 FR 48237, Sept. 18, 1995, as amended at 74 FR 52849, Oct. 14, 2009]

10.001 Policy.

- (a) Agencies must—
- (1) Ensure that legitimate needs are identified and trade-offs evaluated to acquire items that meet those needs;
- (2) Conduct market research appropriate to the circumstances—
- (i) Before developing new requirements documents for an acquisition by that agency;
- (ii) Before soliciting offers for acquisitions with an estimated value in excess of the simplified acquisition threshold:
- (iii) Before soliciting offers for acquisitions with an estimated value less than the simplified acquisition threshold when adequate information is not available and the circumstances justify its cost:
- (iv) Before soliciting offers for acquisitions that could lead to a bundled contract (15 U.S.C. 644(e)(2)(A));

- (v) Before awarding a task or delivery order under an indefinite-delivery-indefinite-quantity (ID/IQ) contract (e.g., GWACs, MACs) for a noncommercial item in excess of the simplified acquisition threshold (10 U.S.C. 2377(c)); and
- (vi) On an ongoing basis, take advantage (to the maximum extent practicable) of commercially available market research methods in order to effectively identify the capabilities of small businesses and new entrants into Federal contracting that are available in the marketplace for meeting the requirements of the agency in furtherance of—
- (A) A contingency operation or defense against or recovery from nuclear, biological, chemical, or radiological attack; and
- (B) Disaster relief to include debris removal, distribution of supplies, reconstruction, and other disaster or emergency relief activities. (See 26.205).
- (3) Use the results of market research
- (i) Determine if sources capable of satisfying the agency's requirements exist:
- (ii) Determine if commercial items or, to the extent commercial items suitable to meet the agency's needs are not available, nondevelopmental items are available that—
 - (A) Meet the agency's requirements;
- (B) Could be modified to meet the agency's requirements; or
- (C) Could meet the agency's requirements if those requirements were modified to a reasonable extent;
- (iii) Determine the extent to which commercial items or nondevelopmental items could be incorporated at the component level;
- (iv) Determine the practices of firms engaged in producing, distributing, and supporting commercial items, such as type of contract, terms for warranties, buyer financing, maintenance and packaging, and marking;
- (v) Ensure maximum practicable use of recovered materials (see subpart 23.4) and promote energy conservation and efficiency; and
- (vi) Determine whether bundling is necessary and justified (see 7.107) (15 U.S.C. 644(e)(2)(A)).
